About Bitcoin

Bitcoin (BTC) is a decentralized digital currency that operates without a central authority. Transactions are verified by network nodes through cryptography and recorded on a public distributed ledger called a blockchain. Created in 2008 by an unknown person or group using the name Satoshi Nakamoto, Bitcoin pioneered the concept of cryptocurrencies.

OUR STORY

About Us

Capital Investment Company has become one of the most reputable brokers in the industry, offering traders CFDs across Forex, Equities, Commodities and Futures. Trading on the Forex market is a legitimate and straightforward way of generating income.

The good news is that you don't have to be a professional trader in order to make money. All you need is the right personality and the right skill set and you can make money trading on foreign exchanges. Capital Investment Company lets you trade in the way that best suits you.

✔ Personalized Trading

Do you want to risk a little or a lot? Do you want gains in the short term or are you playing a longer game? Are you a day trader, a swing trader or a scalper?

✔ Complete Control

With the right tools, information and access to all the world's currencies, Capital Investment Company puts you in control of the trades you make.

RISK WARNING: The Financial Products offered by the company include Contracts for Difference ('CFDs') and other complex financial products. Trading CFDs carries a high level of risk since leverage can work both to your advantage and disadvantage. As a result, CFDs may not be suitable for all investors because it is possible to lose all of your invested capital. You should never invest money that you cannot afford to lose. Before trading in the complex financial products offered, please ensure you understand the risks involved.
